

# PICKUPTANK ALUMINIUM

Diesel

Bensin

## Smart fuel transport and storage

Our aluminum pickup tank is a practical fuel tank in a smaller format. Its smart design makes it safe, flexible and easy-to-handle. With 8 handles for easy lifting and a lightweight design, it puts less strain on your pickup and helps prevent vehicle wear

The pickuptank is specially adapted for:

- Construction
- Forestry contracting
- Landscaping

### Certifications and approvals

The product is approved and certified as an IBC container (IBC = Intermediate Bulk Container), in accordance with the following regulations and recommendations:

**UN** (UN recommendations for the transport of diesel, among others)

**ADR** (European regulations for the international road transport of diesel, among others)

**RID** (international rules for the transport of diesel, among others)

**IMDG** (code for the international maritime transport of diesel, among others)

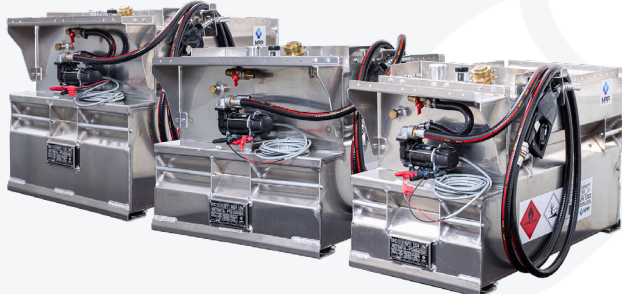

**PEFC** (PEFC is a system for the certification of environmentally friendly forestry)

# A design-protected IBC tank with no expiration date

UN/ADR certified plastic IBC tanks have a certificate period of up to five years. Since our pickuptanks is made entirely of aluminum, there

is no such best-before date for certification. In addition, the material in the tank is maintenance-free and will not rust, which

means that the fuel remains clean throughout storage. The tank is design protected in the EU and Norway.

## Tank Specifications

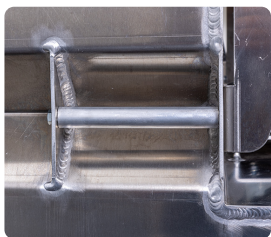

Art.nr:	101517	101518	102540****	101519	100999
Description:	Pickuptank aluminium 150 l	Pickuptank aluminium 250 l	Pickuptank aluminium 320 l	Pickuptank aluminium 360 l	Pickuptank aluminium 400 l
Code:	PTA15-L	PTA25-L	PTA32-L	PTA36-L	PTA40
Volume, 96% (l)*:	145	250	320	355	408
Length (mm)**:	1030	1030	1030	1030	1030
Width (mm)**:	323	533	658	730	730
Height (mm)**:	652	652	720	652	752
Net weight (kg)**:	43	53	52	60	67

\* Calculated volume. \*\* Stated dimensions +/- 10 mm.

\*\*\* Calculated fully equipped with pump equipment fitted.

\*\*\*\* Adapted for Gasoline, but also suitable for Diesel

## Standard equipment

Lifting & load securing brackets on all 4 sides.

Protective feet with mounting brackets for flatbed.

Mounted ball valve and hose nipple 3/4" supply connection.

Analog level gauge, 2" tank cap, 1" pressure/vacuum valve

Pump and hose holder mounted on the side

## Accessories

### Accessory name

- Pump package 230v
- Pump package 12 V, 36 l/min\*
- Pump package 24/12 V, 39/22 l/min\*
- Raising skids (for lifting with forklift), 400 l
- Extra meter hose
- Lid for PTA
- Bensin Anpassning

\* Package including automatic fuel nozzle, 4 meter hose, cable with battery clamps, 1 pc. right-mounted diesel handle holder.

### About MPP

We produce mobile and stationary fuel and energy solutions for critical environments in defense and preparedness, backup power, and fuel logistics. Our future-proof solutions are robust, user-friendly, and can be customized to your needs in close collaboration with our dedicated team

When reliability truly matters.
