

TRANSPORT TANK DEFENCE

TRANSPORT TANK DEFENCE

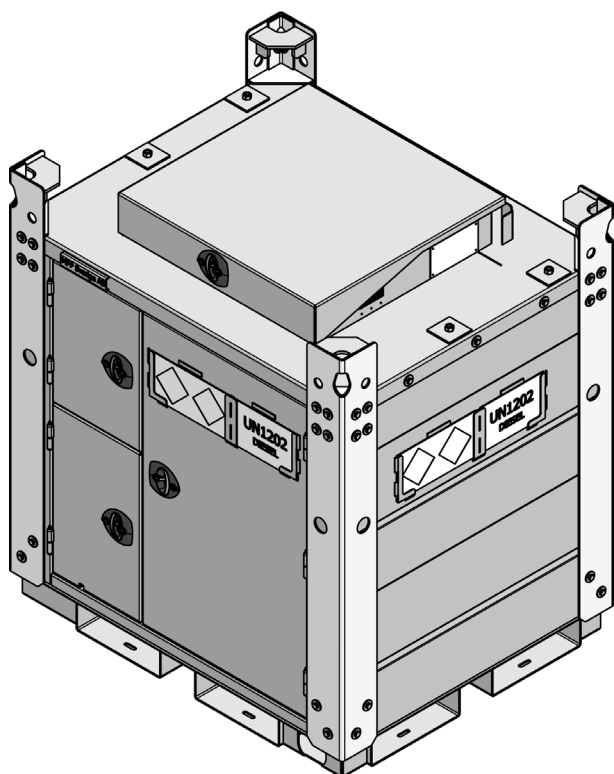

Together with the Swedish FMV this IBC has been meticulously designed and built to fulfil any requirement that may occur in the field. Thanks to its stainless-steel inner tank our TTD is extremely long-lasting no matter what fuel you require; Diesel, Petrol, Kerosene, JetA1, or HVO, this tank is built for them all.

Our Transport Tank Defence is perfect for:

- Defence
- Construction sites
- Backup Power/Energy reserves
- Emergency Management
- Municipalities

Certifications & approvals

- The product is approved and certified as IBC container (Intermediate Bulk Container) in accordance with the following regulations and recommendations:
 - UN** (UN's recommendations for transport of diesel etc.)
 - ADR** (European regulations for international road transport of diesel etc.)
 - RID** (international regulations for rail transport of diesel etc.)
 - IMDG** (code for international maritime transport of diesel etc.)
 - PEFC** (PEFC is a system for sustainable forestry certification)

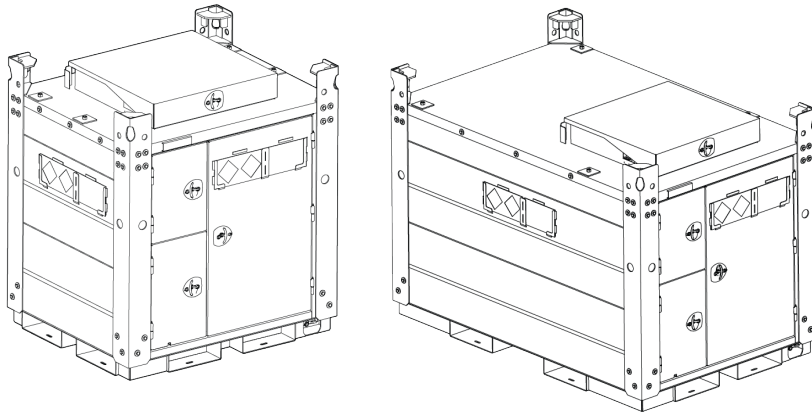

About MPP

MPP is a family-owned company in Fjärås in Western Sweden, and has been operating in the Scandinavian market since 2004. We manufacture approved mobile diesel tanks, fuel stations and stationary fuel tanks that are developed for the Nordic climate. We mainly work with companies involved in rental, construction, haulage, forestry and agriculture which, like us, have high standards in terms of quality, safety and the environment.

MPP is a committed partner whose products – from mobile fuel tanks to complete fuel stations – are safe and easy to use. Our brand promise is: **Fuel management in a safe and convenient way**

Tank specifications

Art. no:	101289	101291
Description:	TT Defence 1000 liter	TT Defence 3000 liter
Model description:	TTD100	TTD300
Storage number:	M7074-609011	M7074-609111
Volume 95% (l):	990	2780
Length (mm):	1477	1477
Width (mm):	1207	2292
Height (mm):	1630	1630
Net weight (kg):	978	1449
